

## **Key Features**

- Low Insertion Loss
- High Extinction Ratio
- Compact Design
- Wide Operating Wavelength
- High Reliability and Stability

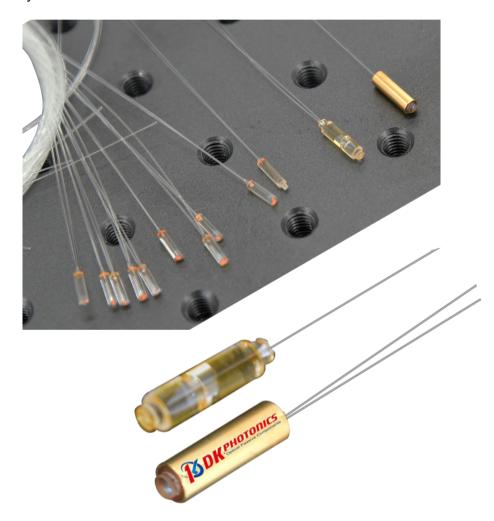

## **Applications**

- PM Circulators
- PM WDM
- PM Coupler
- Signal Processing

## 1550nm Polarization Maintaining Dual Fiber Collimator

The Dual PM Fiber Collimator is the basic element for in-line PM fiber optics components, such as PM Circulators and PM WDM. It has high extinction ratio, low insertion and high return loss. The unique processing and high-quality AR coating also enable this collimator to handle high power.

If you do not see a standard PM Fiber Collimator that meets your needs, we welcome the opportunity to review your desired specification and quote a custom PM Fiber Collimator, Requests for custom fiber pigtails, different wavelengths and handling power of operation or other specific needs will be readily addressed.

| Min. Extinction Ratio (@23℃)     | dB   | 22                    |   |       |                                 |  |  |  |  |
| Min. Return Loss                 | dB   | 55                    |   |       |                                 |  |  |  |  |
| Fiber Type                       | -  | PM1550-XP Panda fiber |   |       |                                 |  |  |  |  |
| Max. Power Handling              | W  | 0.5, 1, 3, 5, 10      |   |       |                                 |  |  |  |  |
| Operating temperature            | ${\mathbb C}$  | -5~+70                |   |       |                                 |  |  |  |  |
| Storage temperature              | $^{\circ}\!$ |                       | -40~+85   |       |                                 |  |  |  |  |
| Dimension                        | mm   |                       | Φ3.2x10(Metal holder) or Φ2.78x9.0 (Glass tube) |       |                                 |  |  |  |  |

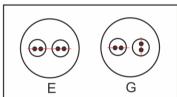

- 1. The specifications are w/o connector. Other lens sizes can also be customized according to requirements.
- 2. For devices with connectors, IL will be 0.3dB higher, RL will be 5dB lower and ER will be 2dB lower. The default connector key is aligned to slow axis. Power transmits through the connector less than 2W.
- 3. When purchasing the collimator, please inform us whether it is used alone or in pairing. If paired, we will pack and ship the paired ones together.
- 4. For G-lens, Working Distance <20mm.

### Working Type

#### **Slow Axis Orientation**

### **Order information**

P/N: PMCOLL-D-(2)-(3)-(4)-(5)-(6)-(7)-(8)-(9)-(10)(D: Dual fiber)

When you inquire, please provide the correct P/N number according to our ordering information, and attach the appropriate description would be better. If need any connector, we do not recommend choosing a 250µm bare fiber pigtail.

Part Number Example: PMCOLL-D-15-5-L-T-E-C-25-10-00-2.78X9

**Description:**1550nm Polarization Maintaining Dual Fiber Collimator, 5mm working distance ,0.5W hand power, Transmission type, E type slow axis, C lens, PM1550 panda fiber, bare fiber, 1.0m fiber length, and no connector, package dimension:2.78x9mm.

## **Ordering Information for Custom Parts**

If you need to customize other specifications, please provide detailed description for your requirement.
